Presidents Notes

Hello to all. Hope you are having a great spring, enjoying the warmer weather, and looking forward to Model A tours. A large group enjoyed the Tour to Sedan where we enjoyed a tour of the Sedan Floral, a thriving and important business in Sedan. As I have mentioned the tour to folks not in the club many have said they try to get their plants from Sedan Floral as they do very well in our part of the country. Thanks to the **James's** for the tour. We also had a short tour of the Emmett Kelly Museum and enjoyed a good lunch of BBQ and delicious Ice cream.

Hope your cars already or getting ready (mine) for the tour season coming up. We have several tours scheduled, including several multiday tours and out of state tours, local tours and an opportunity to "Go Fly a Kite".

At the last meeting we had a very interesting program presented by Asst. District Attorney **Jason Roach**, Chief of the Consumer Protection Division. He gave us several suggestions on how to keep us safe from scammers.

Hope to see you at the meeting on April 22.

Frank Chenowith - President

Wichita A's Model A Club Meeting– March Presentation

March Meeting Presentation

At the March 25th meeting, we had an interesting presentation by Jason P. Roach, Assistant District Attorney, Consumer Protection Division, on “Fraud and Scams; How to Look Out For And Avoid Them”. The presentation provided an overview of the common scams impacting our community, identify red flags that you should be on the lookout for and examples of what you can do to protect yourself.

Some of Jason's Red Flag Points to Remember:

Personal Information Requests:

- Never give out personal information such as a bank account number
- Never give out your credit card number over the phone

Strange Payment Requests:

- Never pay for anything with **gift cards, cash, or cryptocurrency**
- The government does not take Walmart Gift Cards or Bitcoin.**
- If they tell you to keep it secret, it's likely a scam.**
- Never send money to someone you have never met

Editors Notes

Many activities are planned for the Wichita A's. Get your Model A's dusted and ready to go! Rick Speck has planned very interesting programs, so don't miss them. There are always opportunities to get involved with the club, tours, bring a refreshment to the meeting or serve as an officer. A great way to get to know the members and have fun. Enjoy the great weather-about to plant some flowers, hope it is not to soon!

PAST TOURS AND EVENTS

A Floral Delight in Sedan

Saturday, March 23 proved to be a great road tripen day to southeast Kansas for a visit to Sedan Floral. We had 29 people, 13 Model A's and 3 modern machines travel some beautiful backroads of Kansas. Although a little cool, the temperatures did not dampen our sprits and the view out our windscreens was spectacular Kansas! I never tire seeing rolling hills, small streams, ponds, grazing cattle and open prairie. Add the visual of a Model A Ford traversing a two-lane road ribbon and the scene is iconic Kansas.

After just over a two and one-half hour drive we arrived at Sedan Floral at 11:00 AM. Our tour guides, Kathy & her son Jonathan (President /CEO) split us into two groups for a 45 minute walking greenhouse tour. Growing approximately 300 different varieties of bedding plants, the inside of the greenhouse tunnels is a plethora of green plants in early stages of life. Our spring time arrival was also well suited to see a number of plants starting to bloom. Employing 15 people full-time and another 50 guest employees Sedan Floral has provided a life-line keeping a small community in Kansas alive. It was refreshing and inspiring to see.

Frank Chenoweth - Model A's arrive Sedan Floral

Over 7 acres of plants under roof!

Upon completing our tour of Sedan Floral, we drove the Model A's to the Emmet Kelly Museum. Located in downtown Sedan at the old Opera House, the museum has become a repository of news clippings, photos and artifacts relating to Sedan's famous son, Emmet Kelly, aka Weary Willie.

Model A's at the Emmet Kelly Museum

Emmet Kelly Museum guide Rosey Seeny (pointing upward).

Continued from page 5

A uniquely American clown, Emmett Kelly made the hobo clown, Weary Willie, world famous. Appearing in the Ringling Brothers and Barnum & Bailey Circus, Emmett Kelly traveled the United States and Europe presenting his Weary Willie spotlight routine.

During our tour of the Emmett Kelly Museum our group learned that Emmett Kelly was born in Sedan, KS in 1898. Emmett started out by giving “chalk talks” at local schools, worked as a laborer at carnivals and circuses and eventually trained as a trapeze artist and married his first wife Eva, who, together, had a circus trapeze act.

Completing our tour of the Emmett Kelly museum, our group drove to Bucks BBQ for a lunch sandwich. Featuring Bucks notoriously great smoked meats, our Model A’s had a choice of brisket, bologna, chicken, ham or pulled-pork with a side. Bucks BBQ lived up to its reputation of being great BBQ. With lunch done, the Wichita A’s were not-done with Sedan. A great lunch deserves a great desert so the Model A’s did a car parade to Aunt B’s for ice cream and cookies.

Wichita A’s parked at Aunt B’s!

Josh Schmitz & Nicole Lodermeier at Aunt B’s. There’s always room for ice cream!

Continued from page 6

Headline: Flash Mob of Model A's flood Aunt B's in Sedan, KS.

Aunt B's ice cream/coffee shop has repurposed/transformed a former main street lime stone business building into a modern facility for meeting friends and family. With bar stools, tables & chairs along with a relaxing sofa, the modernized space provided a great eclectic space for completing our Model A tour of Sedan.

The visual of an old Model A Ford provides an instant nostalgic and magical look into the past.

Whose watching?

The clipping to the left was found on Instagram and appeared minutes after the Model A's were parked on Main Street Sedan across the street from Aunt B's.

Although our cars travel slow, our cars image travel at the speed of light!

The answer to the question - Whose Watching?

Answer is: EVERYONE!

Kudos to the Wichita A's for keeping the past alive and sharing a great iconic visual with all the folks watching. Ahooga!

IMPORTANT UPDATE

We need to collect a \$200 per person deposit for our *Gilmore Car Museum – Michigan Bus Trip*. **This is a non-refundable deposit UNLESS the trip is cancelled by the club planners due to unforeseen circumstances.**

Please send your deposit to: **Rick Speck**, as soon as possible but not later than April 22, 2024 or bring your check to the April 22nd Club Meeting . Make the check out to: Wichita A's Model A Car Club.

If you have not signed up but would like to go on this amazing trip it isn't too late to join in. Call or email **Rick Speck** at

The proposed bus trip to Michigan will provide us with the opportunity to look back at the early years of the automobile and reflect on our parents and grand-parents lives. It will provide all of us with the opportunity to ponder how much different would our life be today without automobiles. On our bus trip we will be stopping at five different museums. Each stop will offer a unique view into our country's past.

The first stop will be the Studebaker National Museum. The second stop is at History Museum & Oliver Mansion. As our third stop on our bus adventure, The Gilmore is hailed as one of the top museums in the nation. Our fourth, fifth and final stop of our bus trip will take us to Auburn, Indiana where we will visit The Early Ford V-8 Museum and Auburn Duesenberg Cord Museum.

MAFFI MINUTE

Through the generosity of Donna Lewis, former MAFCA President and MAFFI Trustee, "Betsy", a 1930 Ford Model A has been donated to help raise funds for the expansion of the beloved Model A Ford Museum. The car remains in the same condition as restored by Red Grow in the 1950's. Enjoy driving "Betsy", your newest Model A, to your next cruise-in or car show. This is a truly historical vehicle, once owned by a MAFFI Hall of Fame inductee.

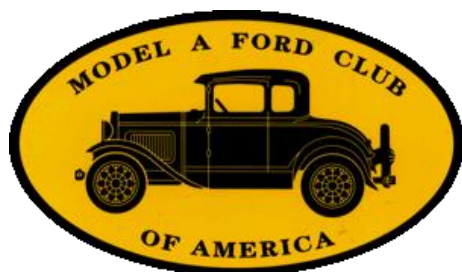

"Betsy", became famous as the best Model A in the world. The Ford Model A has gathered 32 top place trophies in the 34 shows which the car was entered. That includes two national shows in 1957 and 1962. Overall, the car won 39 trophies. It is said that Red Grow's car, "Betsy", was an inspiration at the time. It drove many people to do their best in restoring their own car. This urge to do the best restoration possible, developed the need for more information about how to a better job. As a result, the Judging Standards evolved. We can thank Red Grow and the MAFCA founders for their vision. In 1967, Red sold "Betsy" to a Ford car dealer named Dave Grubbs for \$5,000, an unheard-of price in those days. As a result, Dave Grubb placed the car in a glass cage centered in his dealer showroom. Now, you have a chance to own "Betsy" by entering a Sweepstakes through our website, <https://www.maffi.org/index.htm> , or scan the QR code and receive 20% more tickets for your Donation, available at checkout!"

Happy Motoring,

TECH ARTICLE

Volume 53, Issue 8

Tech Talk: Distributor Failure Tips

On any long club tour sooner or later one of the Model A's will pull over to the side of the road and up will come the hood. The first component to be attacked is the distributor, and it is probably the most likely source of the problem. For this reason it makes sense to carry a spare distributor with you that has been rebuilt with the points already set, and most important, tested on the same running car. It is a lot easier to swap out the distributor than to be standing along side the road fooling around trying to determine what's wrong with it and to attempt to change out numerous parts. You do not have to reset the timing as long as you do not disturb the cam screw and you are installing it in the same car it was tested on.

Distributor failure: The three most likely things that tend to go wrong with a distributor are (1) the condenser failing, (2) the lower plate wire breaking or shorting, or (3) the point gap closing up.

The points: The point gap should be the first thing to check and they can be easily set without changing the distributor. Points tend to close up as the rubbing block wears. This is especially true on a new set of points. The points will close up considerably during the first 100 miles, until a glaze is worn into the rubbing block. So if you just installed new points before starting out on the big tour, be prepared to have to reset them sometime soon. After that you only need to reset that at about 1,000-mile intervals. Points are set at .018 to .022, so be sure to carry a set of feeler gauges with you.

Henry's wayward wire: The wire that connects the upper and lower distributor plates together is also prone to break and/or short out. The arrangement wasn't one of Henry's better ideas. The wire is supposed to be a very flexible 80-strand wire to be able to better withstand the constant

movement imposed by the driver's use of the spark advance lever. Most distributors by now do not have the proper wire installed, and even with the proper wire, they will still eventually break due to the constant flexing. Be wary of the "modern" lower plates being offered by most suppliers. They will eventually fail (after about 1,000 miles) because of the constant sparking and erosion of the contacting parts. The correct 80-strand wire and is really the only best solution.

The condenser: The condenser is usually the first thing everyone wants to replace. I have seen countless numbers of them replaced over the years, but I have only seen one that actually failed.

Many years ago era condensers were susceptible to failure due to heat, and in the present day due to inherent

poor quality. The condenser is located in close proximity to the exhaust manifold where it is extremely hot under normal conditions. If your engine becomes over heated due to high ambient temperatures and/or running out of water, or driving around with the spark handle all the way up you could do damage to the condenser. The poor quality of many condensers on the market is the bigger problem though. Look at the end of the condenser where the strap is attached. If it has a 1/4" round circle and is soldered on to the base of the condenser, don't use it. Temperatures can get high enough to melt the solder. Look for a condenser that has the strap stake welded on, they will have three small dots on the strap where it attaches to the base of the condenser. These are the better quality condensers.

The Rumbleseat Review is the official publication of the Wichita A's Model A Ford Club, Inc., a local chapter of the Model A Ford Club of America and the Model A Restorers Club. It's purpose is to keep members informed of past, present and future events, activities, and club news. In addition, this newsletter includes articles and other information to aid in the restoration and enjoyment of the Model A Ford automobile.

This publication is mailed or emailed to members, prospective members and editors of similar publications prior to monthly meetings. Meetings are usually the fourth Monday of the month. Members may publish antique car related ads only for free of charge which includes items wanted, items for sale, or items for trade. We invite members to submit articles containing technical Model A information and other interesting tidbits for publication in this newsletter. Items to be published must be submitted to the newsletter editor by deadline shown in the calendar. Wichita A's membership dues are \$25.00, per year (October to September30). MAFCA dues are \$50.00 per year and MARC dues are \$50.00 per year. A business card advertisement in this newsletter is \$25.00 per year.
